LAFCO Service Review Guidelines Preliminary Draft Update

In recognition of the magnitude of LAFCOs new service review responsibilities, OPR will be using a two-step draft review process for the development of the Service Review Guidelines: Preliminary Draft and Final Draft.

A public comment period on the Preliminary Draft was held August 2, 2001 through August 22, 2001. In addition, OPR hosted two workshops to receive comments on the Preliminary Draft. A summary of the workshops is available. Workshops were held in:

- Red Bluff on August 6, 2001
- San Diego on August 10, 2001

Following this public review and comment on the [Preliminary Draft](#), OPR will prepare a Final Draft which will also be circulated for a 21-day review period.

Throughout the process of developing these guidelines, it has been clearly demonstrated that "one size will not fit all." OPR hopes that a two-step public review process which includes mailings, postings on the Internet, workshops and working group meetings will assist us in developing a guidance document which is flexible and applicable to a wide variety of municipal service reviews and LAFCOs.

If you would like to be notified of new information regarding the LAFCO Service Review Guidelines, please be sure to [sign up](#) to be put on our mailing list. After completing the form, save it and e-mail it to Julia.Ouellette@opr.ca.gov.
